Guidance Information

- 1 All learning and assessment within this unit standard must be carried out in accordance with the following, as relevant to their role:
 - relevant legislation including Health and Safety at Work Act 2015, Privacy Act ~~1993~~2020, Consumer Guarantees Act 1993, Accident Compensation Act 2001, and any subsequent amendments;
 - guidelines and codes of practice applicable to this standard include Code of Ethical Practice endorsed by Exercise New Zealand, and the New Zealand Pre-Screening Guide, November 2014 available from Register of Exercise Professionals website <http://www.reps.org.nz/>;
 - organisational policies and procedures including Emergency Action Plans (EAPs) and Standard Operating Procedures (SOPs).

- 2 Definition

Allied health professionals each have a distinct, specialised body of knowledge and skills, and actively work with people accessing health and disability services across a range of settings. They have a relevant tertiary (or equivalent) education qualification, have a professional association, an appropriate code of ethics and standards of practice, and a recognised system for monitoring ongoing competence. In their practice, allied health professionals provide services and engage in activities which may include: prevention, assessment/evaluation, identification/diagnosis, treatment, rehabilitation/habilitation, advocacy, promotion of health and wellbeing, education, research, leadership/management.

Outcomes and performance criteria

Outcome 1

Develop networks with allied health professionals for the referral of exercise participants.

Performance criteria

- 1.1 Explain the scope of practice for allied health professionals and how an exercise participant would benefit from referral.
