

## **Guidelines for Schools**

These guidelines are an addendum to appendix 9 of CMR0099 and are designed to support CMR 0099 Consent to Assess requirements for schools. Please note that unit standards in Base Scope for Schools (BSAS) do not require consent to assess approval from Toi Mai and are therefore not included in this appendix.

Please contact Toi Mai for more information and advice about the development of consent to assess applications:

Consent to assess applications from schools for the following unit standards will be supported, based on the understanding that schools operate with a Quality Management System (QMS) document that meets CMR 0099 requirements and operate within Appendix 1 of the Consent to Assess (CAAS) rules on NZQA's website at [Consent to Assess :: NZQA](#). NZQA has guidelines to assist schools at [Guidelines consent to assess standards :: NZQA](#).

NZQA will not give consent to assess for expiring unit standards, the onus is on the school to ensure all unit standards in their application are current and reportable.

### **Delivery and/or assessment through an external provider**

Note: if a school intends to engage an external provider to deliver and/or assess unit standards on their behalf, the school must hold consent to assess for the relevant unit standards.

A formal agreement, usually a memorandum of understanding (MoU), must also be in place between the school and external provider documenting the responsibilities of each party. This is arranged by the school and must be included with the consent to assess application. Please see [Consent to assess - Toi Mai](#) for further guidance.

The CTA holder is responsible for ensuring assessment material has been pre-moderated and approved by the standard setting body prior to use in assessment.

All schools must meet the requirements of CMR 0099.

### **Standards suitable for schools - Risk Levels**

Unit standards in this appendix have been reviewed and selected by Toi Mai as suitable and appropriate for assessment in schools. The list of unit standards is ordered by subfield and is "risk-based," to facilitate meeting consent to assess requirements for low-risk unit standards and clarify requirements for medium and high-risk unit standards. The level of risk has been determined by Toi Mai, these risks will be reviewed and updated as appropriate.

## Risk Rating

The risk rating table provides a guideline for schools on the suitability of unit standards as well as any additional requirements based on the risk level of the unit standard. The risk rating is however considered alongside moderation and compliance history. Toi Mai may therefore request additional information, request a site visit, or decline support for unit standards, as necessary.
